## 2019 Membership Form

**Cornerstone Society** is a giving club dedicated to assuring that quality health care services are available to patients in our region, close to home. Because Marlette Regional Hospital (MRH) is a not-for-profit 501(c)(3) tax-exempt organization, technology and service updates cannot be funded by patient revenue alone. That is why our Cornerstone Society members have made a real difference in the communities we serve, and why they continue to be such an integral partner in our mission to continuously improve the quality of health in the communities we serve.

### Membership

Cornerstone Society membership is attained through a charitable contribution of \$10,000 or more (donation may be made over a period of ten years) from an individual, couple, or business.

As a Cornerstone Society member, your name will be prominently displayed on an engraved plaque on our donor recognition pylon located in the Seton lobby of the hospital. You will also be recognized in the MRH Annual Report newsletter, and you will be invited to attend special events throughout the year.

To join or renew Cornerstone Society membership, simply complete the form at the bottom of this page and return this document to the Marlette Regional Hospital Foundation in the envelope provided. Membership contributions are tax deductible according to IRS guidelines.

### Project/Cause for 2019

#### FIRST IMPRESSIONS EXTERIOR UPGRADE PROJECT

Cornerstone Society membership contributions will assist the hospital in undertaking a first impressions exterior upgrade project at Marlette Regional Hospital and its four rural health clinics in Brown City, Kingston, Mayville and North Branch.

We have the best form of advertising being physically located along main roadways in our Thumb Area communities, but our exterior signage and landscaping is showing its age. Since first impressions are lasting, we want the quality conveyed on the outside of our facilities to match the high quality services we know we deliver. This project will enhance street-view landscaping, existing building and roadside signage, and will include a new digital sign at the main hospital campus.
