Community Preventive Health Screenings

Achilles Bone Density Screening, \$5*

Measures the strength of your bones and your risk for osteoporosis.

**Call 989-635-4360 to schedule*

Basic Metabolic Panel Screening, \$26

Provides a snapshot of your kidney health, blood sugar and key electrolytes. Checks BUN, creatinine, calcium, carbon dioxide, chloride, glucose, potassium and sodium.

Complete Blood Count (CBC), \$16

Evaluates your overall health and can detect disorders including anemia, infection and Leukemia. Measures red and white blood cells, hemoglobin, hematocrit and platelets.

Glucose Screening, \$9*

Evaluates your blood sugar levels and risk for diabetes, kidney disease, thyroid disorders, liver disease and other health risks.

**Requires a 12-hour fast*

HbA1c Screening, \$17

Aids in early detection of Type 2 Diabetes.

Lipid Profile Screening, \$26*

Measures the level of specific lipids (fats) in blood to help assess your risk of cardiovascular disease. Measures total cholesterol, triglycerides, HDL, LDL, VLDL and cholesterol HDL ratio.

**Requires a 12-hour fast*

Liver Panel Screening, \$40

Helps detect, evaluate and monitor liver disease or damage.

Microalbumin Screening, \$20

Detects very small levels of a blood protein (albumin) in your urine. Detects early signs of kidney damage in people who are at risk of developing kidney disease.

Potassium Screening, \$8

Measures the amount of potassium (electrolytes) in the blood necessary for cell and muscle function.

Prostate-Specific Antigen (PSA), \$26

Measures PSA in your blood and your risk for prostate cancer. Ideal for men aged 55 to 69 years or younger if you have a family history.

Spirometry Screening, \$62*

Measures how much (volume) and how fast (flow) you can move air into and out of your lungs for early detection of lung diseases.

**Call 989-635-4360 to schedule*

Thyroid Stimulating Hormone Screening (TSH), \$23

Helps diagnose thyroid disorders and monitors treatment of hypothyroidism and hyperthyroidism.

Vitamin D, \$30

Measures the level of vitamin D in the blood essential for proper growth, teeth and bones.
